1. **Construction Refuse**, as the term is used in this article, means all building materials, waste or rubble resulting from the private construction, remodeling, repair or demolition of houses, commercial buildings, sidewalks, streets, pavements and other structures.
2. **Garbage** is putrescible animal and vegetable wastes resulting from the handling, preparation, cooking and consumption of food and any other matter of any nature whatsoever which is subject to decay, putrefaction, or the generation of noxious or offensive gases or odors, or which may serve as a breeding or feeding material for rodents, flies or other germ-carrying animals and insects.
3. **Refuse** is all putrescible and nonputrescible solid wastes (except body wastes) including garbage, rubbish, ashes, street cleanings, dead animals, abandoned automobiles, and solid market and industrial wastes.
4. **Rubbish** is nonputrescible solid wastes (excluding ashes) consisting of both combustible and non-combustible wastes, such as paper, cardboard, tin cans, yard clippings, wood, glass, bedding, crockery and similar materials.

9.0302 Accumulation of Refuse Prohibited

No person may permit or suffer to accumulate in or about any yard, lot, place or premises; or upon any street or sidewalk, adjacent to or abutting upon any lot, block or place, or premises owned and occupied by him, or for which he may be agent, within the city limits, any and all refuse, nor suffer such yard, lot, place or premises to be or remain in such condition.

9.0303 Containers: Removed and Replaced: Amended June 18, 2007

The city will provide residential customers with a 95 gallon garbage container of the city's choosing. After the container is received by the resident, the resident user is responsible for the care and maintenance of the container, but ownership will remain with the city. Each container has a serial number that will be registered by the city for the resident at a specific address. The registered user is responsible for the cost of repairs and replacement of the container, which will be completed by the city.

Additional containers may be leased from the city. There will be an additional monthly garbage collection fee for each additional container. Users may not decorate or deface their container. If the resident relocates, the container must remain at the address it is registered.

Garbage placed in the container must be bagged or wrapped. Users are required to clean the container regularly to prevent odors and residue, which causes garbage or bags to stick to the inside of the container and attract unwanted animals.

The city will not collect garbage from any container except the ones provided by the city, or meets city specifications.

The number and size of containers/dumpsters required at a household or business is up to the discretion of the public works director. Additionally required maintenance on containers/dumpsters is at the discretion of the public works director.

All dumpsters must be placed on a hard level surface such as concrete or asphalt.

9.0304 City Collection

1. Except as provided in the next paragraph, all garbage and rubbish as defined herein will be collected by the city or their duly designated agents pursuant to any valid service contract or contacts by and between the City of Hazen and any commercial hauler as frequently as is necessary to maintain and preserve community cleanliness and sanitation, except that this section does not require the collection of garbage and rubbish where streets and alleys are in a temporary condition which makes it impossible so to do and in case of the failure to collect such garbage and rubbish, such failure does not relieve the occupant of the premises from the payment of the garbage and rubbish collection fees hereinafter provided for. No resident may refuse garbage collection service and failure to use this service does not exempt any person from payment of the charges established herein.

2. From and after May 1, 1993, the city will not collect, and the county landfill will not accept, tree branches, leaves, grass clippings, lead-acid batteries, infectious wastes or used motor oil. Neither will the city pick up major household appliances or other "white goods" such as sinks, tubs and toilets, but they may be disposed of at the landfill for a charge set from time to time by resolution of the Board of County Commissioners. By resolution, the board may except from collection other recyclable refuse as markets become available:

3. The city may, by resolution, enact such rules and regulations as deemed necessary to aid and implement the collection of garbage, rubbish, and trash.

The schedule of monthly fees and charges for the collection of garbage and rubbish by the city and the disposal thereof shall be as established from time to time by resolution of the Board of City Commissioners.

9.0306 Fees Payment Collection

In all places where water service is provided, the monthly charge set established by Resolution of the Board, will be added to and collected as a part of the water bill and collected by the water department, but will be separately stated on the bill. Garbage and rubbish collection bills are due and payable monthly at the same time as the water bill. If such charges is not paid when due, the water service to such premises may be shut off by the water department in the same manner as is now provided for in the case of delinquency in payment of water bills and such service will not be restored without the payment of the penalties now provided for.

In all places where water service is not provided, the charges set forth must be paid to the water department of the city upon monthly bills from the water department.

If the garbage and rubbish charge so established is not paid when due, such sum may be recovered by the city, in an action at law against the owner or occupant, or both, of the property so served and may be assessed against the premises served, and collected and returned in the same manner as other county and municipal taxes are assessed, certified, collected and returned.

The proceeds from the collection of the fees and charges must be placed in the general fund, and all of the expense of the city, in the purchase and maintenance of equipment and in the collection and disposal of garbage and rubbish, will be paid out of the general fund.

9.0601 Dangerous Fences

No person may construct, or otherwise erect, temporarily or permanently, any fence, or any portion thereof, composed of wire material, including, but not limited to, barbed wire and chicken wire, except chain link-type fencing material designed for residential use or security fences.

For temporary construction situations, wire fencing, except barbed wire, may be used during such construction period, upon prior approval by the Hazen Building Inspector.

If the Building Inspector determines that any fence is a dangerous structure, the inspector shall order the property owner to remove it within 7 days. A property owner wishing to contest the Building Inspector's determination must, within the 7 days, file a written request for hearing with the City Auditor. The Auditor will schedule a hearing before the City Board at or before the next regular meeting and notify the property owner of the date and time of the hearing. At the hearing the Building Inspector and property owner may present evidence, and thereafter the Board shall determine whether the fence is a dangerous structure and, if so, shall order its removal.

9.0602 Refusal: Amended March 6, 1997

Refusal to follow an order of the Building Inspector, where no hearing is requested, or an order of the Board entered after hearing is an offense punishable by a fine of up to \$500.00.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF HAZEN, NORTH DAKOTA, that Chapter IX and a new Article 7, be enacted as follows:

9.0701 Definitions

The following words, terms and phrases, when used in this article, have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

1. **Business** means a sole proprietorship, partnership, association, joint venture, corporation, or other business entity, either for profit or not for profit, including retail establishments where goods or services are sold and professional corporations and other entities where professional services are delivered.

2. **Electronic smoking device** means any electronic product, such as one composed of a heating element and battery or electronic circuit which provides a vapor of nicotine or any other substances, and the use or inhalation of which simulates smoking.

The term includes any such device, whether manufactured, distributed, marketed, or sold as an e-cigarette, e-hookah, e-cigar, e-pipe or under any other product name, or descriptor and also includes any cartridge or other component of the device.

3. **Employee** means an individual who is employed by an employer in consideration for direct or indirect monetary wages or profit, or an individual who volunteers services for an employer.

4. **Minor** means a person under the age of 18 years.

5. **Smoking** means inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, or pipe, or any other lighted or heated tobacco or plant product intended for inhalation, in any manner or in any form. Smoking also includes the use of an electronic smoking device which creates a vapor, in any manner or any form, or the use of any oral smoking device for the purposes of circumventing the prohibition on smoking in this article.

6. **Tobacco products** means any product that is made from or derived from tobacco, which contains nicotine or a similar substance, and is intended for human consumption or is likely to be consumed, whether smoked, heated, chewed, absorbed, dissolved, inhaled or ingested by any other means, including, but not limited to, a cigarette, a cigar, pipe tobacco, chewing tobacco, snuff, snus, or an electronic smoking device. Tobacco product also includes pipes and rolling papers, but does not include any product specifically approved by the U.S. Food and Drug Administration for legal sale as a tobacco cessation product and is being marketed and sold solely for that approved purpose.

9.0702 Purchase or use of Tobacco Products by Minors

However, an individual under 18 years of age may purchase and possess tobacco as part of a compliance survey program when acting with the permission of the individual's parent or guardian and while acting under the supervision of any law enforcement authority. A state agency, city, county, board of health, tobacco retailer, or association of tobacco retailers may also conduct compliance surveys, after coordination with the appropriate local law enforcement authority.

It is unlawful for any minor to sell, possess, purchase, attempt to purchase, smoke or use tobacco products in any form in which such products may be smoked, heated, chewed, absorbed, dissolved, inhaled or ingested by any other means. However, an individual under 18 years of age may purchase and possess tobacco products as part of a compliance survey program when acting with the permission of the individual's parent or guardian and while acting under the supervision of any law enforcement authority.

A state agency, city, county, board of health, tobacco retailer, or association of tobacco retailers may also conduct compliance surveys, after coordination with the appropriate local law enforcement authority. A minor may sell tobacco products as a bona fide employee of a licensed tobacco retailer.

It is unlawful for a minor to present or offer to another individual a purported proof of age which is false, fraudulent, or not actually the minor's own proof of age, for the purpose of attempting to purchase or possess tobacco products in any form in which it may be smoked, heated, chewed, absorbed, dissolved, inhaled or ingested by any other means. A violation of this section (d) is a civil violation and there is a fee of \$25.00 for a minor 14 years of age or older who has been charged with a violation of this section.
